Scope

The annual *Summer Safety and Reliability Seminars* are organised to advance the methods for the safety and reliability analysis of complex systems and processes and to disseminate the newest achievements in the field. The subjects of the Seminars, different from year to year, are chosen by the Seminars Board in an effort to dynamically represent the methodological advancements developed to meet the newly arising challenges in the field of safety and reliability. This year the emphasis is addressed to the following subjects: Reliability and Safety of Complex Systems and Processes, Critical Infrastructure Safety and Operation Cost, Critical Infrastructure Accident Consequences, Reliability and Safety of Transportation Systems, Reliability and Safety of Energy Distribution Networks, Covid-19 Pandemic Human Safety.

Language

The Seminars language is English.

Contributions

Contributions are in the form of 20-minutes papers presented at Seminar Sessions and 40-minutes lectures presented at Plenary Sessions, with corresponding full text from 10 of up to 20 pages and training courses on selected safety and reliability topics in the form of theoretical background guides and power point files to be presented and prepared for commercialization at post-Seminar 3 days Workshop on 9-12.09.2021. The authors are requested to submit their papers, lectures and training courses electronically to the Secretariat using the following e-mail address: ssars@umg.edu.pl Only those contributions prepared according to the Contribution Templates available on <https://ssars.umg.edu.pl> will be considered.

The papers peer-reviewed and accepted by the Seminar Board will be the chapters of monograph entitled "Safety and Reliability of Systems and Processes, Summer Safety and Reliability Seminar 2021", with an ISBN-number (evaluated with 20 points per chapter according to regulations of the Polish Ministry of Science and Higher Education). Training courses will be prepared for international publication and sale.
